

# TRAINEEDAGEN

**CHALMERS**

10th of November 2020

## **WE CREATED THIS EVENT FOR YOU**

Our aims are for you to find your next employer, your new place for development, and show the potential of trainee programs.

We hope that you get what you want from this day. Otherwise, let us know!

This year we welcome you to the fifth, and quite different edition, of Traineedagen! Before you start reading about the fair, I have a question for you: How do you network?

I bet you don't do it the same way as I do, nor as your best friend does. During these special times, how we network has to some extent changed, and some may find it more difficult than others to continue networking. We have therefore created a digital fair, containing informative fair stands, and plenty of opportunities for you to connect with the company representatives that you are extra interested in. In other words, a chance for you to create a flexible and comfortable meeting where you feel your best. Simple enough, right?

My advice to you is to dare to ask those silly questions you have always wondered about; especially concerning your approaching work life! This catalog is your guide to Traineedagen 2020. Take the opportunity to read about the companies and prepare questions before the fair. And hey, we've already matched your profile to the companies participating. So take a breath and rest assured that the companies are already interested in you — and don't forget to promote yourself!

A stylized, handwritten signature in black ink that reads "Robert H". The letters are fluid and connected, with a large, sweeping "H" and a cursive "Robert".

Robert Hummerhielm

**CHALMERS PROMOTION**

# Our organisation

---

Chalmers Promotion is a company owned by Chalmers Student Union. Our dedication and deep understanding of student values enables us to create forums where students and businesses can connect.

We help companies to interact with students, both by physical meetings like lunch lectures, mingle events and through union's digital and analog communication channels.

The main reason why we are organizing events such as Trainedagen Chalmers is to help students at Chalmers to meet their future employers and create a network that can help them whilst succeeding their dreams.

Do you want to learn more about us you can visit our homepage [www.chspromotion.com](http://www.chspromotion.com)

# 5 year anniversary

---

Traineedagen celebrates its fifth anniversary this year! Every year has been a success where hundreds of students have been able to connect with companies offering trainee positions. This year won't be any different. Even though the circumstances have changed, we are eager to create a platform for students and companies to meet.

We hope you'll be inspired during the day and become excited about your future, perhaps as a trainee!

**TRINEEDAGEN**

**5<sup>th</sup>**

**YEAR**

We are the **Trainedagen** team

We have worked together on this event since the Spring of 2020, and we are excited for you to see the result. We hope you will enjoy this day as much as we will.

From the left:

**Madeleine Xia**, *Project Manager*

Studies her second year of Software Engineering, and has many great skills. Somehow, biking isn't one of them.

**Avan Mirkhan**, *Project Manager*

Studies his first year of the Master program Nanotechnology, and enjoys the small things in life!

**Robert Hummerhielm**, *Head of Traineedagen*

Studies his first year of the Master program Materials Chemistry, and leads with greatness, perhaps due to his nobel heritage.

**Linda Silberberg**, *Art Director*

Studies her third year of Industrial Design Engineering, and has a special love for Swedish liquorice.

# The Fair

---

Trainedagen Chalmers is much more than a simple event. It's an exclusive fair where students from both Chalmers and Gothenburg School of Business, Economics and Law get the opportunity to meet some of the most attractive companies that offer graduate programs.

The idea is to connect the best and most appropriate students with some of the biggest companies in Sweden. Therefore, you are handpicked to match the company's profile and will have the unique opportunity to come into contact with key company representatives, in a calm and intimate environment with your future in focus.

# GRADUATELAND

*This year's virtual fair is made in collaboration with Graduateland. In a relaxing, easy-to-use platform that helps you promote yourself to companies, we wish you nothing less than a pleasant experience.*

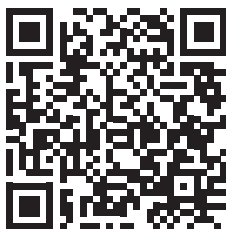

*Kickstart your career!*

# Map

---

## Hey there!

Looking for a quiet room just for you during the fair? Then look no further! We have booked rooms just for Trainedagen attendees in the SB-building, on the 3rd, 4th and 5th floor, where you can enjoy the virtual fair in a peaceful environment. Scan the QR code to access the Chalmers map for further directions.

# Prepare for the fair

---

## **Inform yourself**

It is easier to communicate if you have some basic knowledge about a company's organisation and trainee program. You will find information about all the attending companies on our website.

## **Find a quiet place**

Make sure you're in a quiet and comfortable environment during the fair to professionally promote yourself to the companies.

## **Look at every conversation as an opportunity**

Present yourself to every exhibitor. Even though their main field is not the same as yours, they have a lot to offer.

## **Ask questions!**

You have an unique opportunity to ask questions to top companies. Get to know about them, network, and ask what their trainee program is all about!

## **Exchange contact information**

Make sure to network with companies and get their contact information for further correspondence.

You are one of the hand-picked ones.  
Show them!

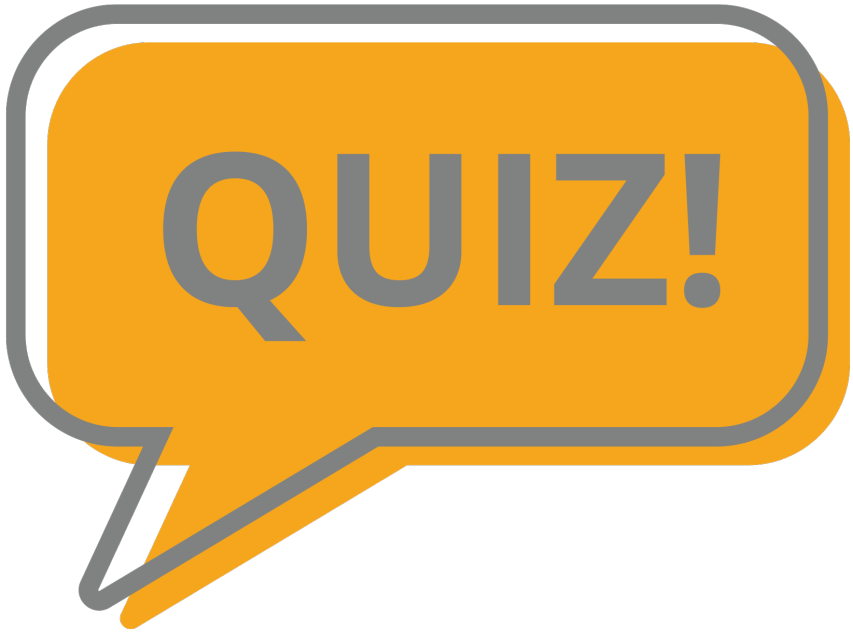

# Presentation

---

Do not miss the presentation held  
by Parker Hannifin during the fair  
at **12:30**

Perfect to watch during lunch break.

**Let's put your career in motion!**

# Quiz

---

Participate in our quiz at **15:00** and get the chance to win a special prize!

A close-up photograph of a person's chest. They are wearing a white dress shirt and a bright orange necktie. A small, rectangular, orange name tag is pinned to the left side of the shirt. The name tag has the text "TRAINEEDAGEN" in a large, bold, sans-serif font, and "CHALMERS" in a smaller, bold, sans-serif font below it. The background is slightly blurred, showing more of the white shirt and the orange tie.

**CHALMERS**

# Exhibitors

---

We are proud to present to you 5 exhibitors from some of the most attractive companies in Sweden. Key people from each company will be present and you'll have the chance to network with all of them.

You can learn more about this year's exhibitors in the next chapter.

# ERICSSON

Ericsson is one of the leading providers of Information and Communication Technology (ICT) to service providers. We enable the full value of connectivity by creating game-changing technology and services that are easy to use, adapt, and scale, making our customers successful in a fully connected world.

## **Ericsson**

Ericsson empowers an intelligent, sustainable and connected world and we do it by relentlessly innovating technologies that are easy to use, scale and adapt. We have three trainee programs that we want you to join – Ericsson IT Trainee Program and our two Early Career programs, Innovate & Excellerate.

### **Ericsson IT Trainee Program**

This program is an opportunity for you to have an insight into different areas at Ericsson, such as Cloud, Cyber Security and Automation & Analytics. Through a combination of job rotation, training and constant challenge, you'll learn and engage with live projects.

### **Ericsson Early Career Programs**

We have two Early Career Programs designed for recent graduates and those who already have some professional experience and an outstanding record. These programs are intended to give your career added momentum at just the right time – maximizing the business skills you've gained so far, adding more to your repertoire and equipping you to make an impact on the global stage.

Are you in?

# HITACHI

Hitachi ABB Power Grids is a pioneering technology leader that is helping to increase access to affordable, reliable, sustainable and modern energy for all. We keep your lights on, the factories running, our hospitals and schools open.

## **Hitachi ABB**

What we deliver is used almost universally, with more than three quarters of the world's population positively impacted by what we do. Founded on 100+ years of engineering heritage and enriched by diversity, we balance social, environmental and economic values for a sustainable society. We employ 38,000 experts in more than 90 countries.

-Are you ready to apply your theoretical knowledge from university to make a real difference in a global company?

-Do you want to learn about the traditional work of an engineer, but also how the future looks like?

-Do you exactly know your place, or do you want to explore different possibilities to find the perfect job?

In either case, our Graduate program could be right for you.

Join us at the forefront of innovation and face the challenge of enabling a stronger, smarter, greener power grid. Come as you are and prepare to get better as you learn from others. Work with fantastic people from all over the world. Make lifelong friends, have fun!

# limeo

CRM with a twist

At Lime, we create customer magnets with our CRM solutions. Are you world-class material? Great. We are constantly on the lookout for new talents to join our Nordic Trainee Program.

## **Lime**

At Lime, we love CRM!

Since the beginning we have helped more than 6000 companies to reach better results with the help of easy-to-use CRM solutions that we develop, consult and support ourselves. Today we are over 270 colleagues and one of the largest CRM suppliers in the Nordic countries with offices in Gothenburg, Stockholm, Lund, Helsinki, Oslo and Copenhagen. We like to have ridiculously fun at work and are convinced that it is one of Lime's success factors. We usually say that the only thing we take seriously is our customers...

## **Our trainee program**

With our Nordic Trainee Program, we promise a unique opportunity to kick-start your career. With a solid training program as a base together with challenging projects and a senior mentor, we guarantee that you will have a steep progress line. Quite simply, a brilliant start to your career!

We are looking for talents in business development, technical project management, application consulting and development. The trainee program starts in January and August every year. Welcome to Lime!

As the world leader in motion and control technology, Parker has an important role to play in solving the greatest technical challenges of our time. To succeed with our challenge, we need amazing employees with different skills and backgrounds.

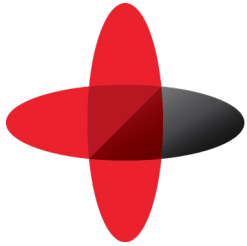

## **This is Parker**

Parker Hannifin is a world leader in motion and control technology. For 100 years, we have helped our customers succeed in many different mobile and industrial applications. Our task is to solve our customers' challenges and at the same time have a positive impact on our surroundings. We are a global Fortune 250 company, with a total turnover of SEK 100 billion and over 55,000 employees around the world. Parker's Sweden operations have a turnover of approximately SEK 2 billion and around 900 employees. Read more about us at [parker.com](http://parker.com).

## **Trainee at Parker**

As a trainee at Parker Sweden, you are offered the opportunity to develop your expertise in areas such as R&D / technology, production / supply chain / quality and sales. You will also make contacts and create a valuable network for your future career at Parker. The program's total time is 18-24 months and is divided into 3 or 4 projects. As a trainee at Parker, you can look forward to a time of intensive work, professional and personal development and an understanding of the world's leading company in motion and control. Our goal with the program is to develop our future leaders.

# SIGMa

Sigma Young Talent is a consultant company focused on new IT and Engineering graduates. With us you can participate in our Tech Talent programs alongside several leading companies in our field of IT and Engineering.

## **About Sigma Young Talent**

We are a part of Sigma Group, a leading consulting group consisting of more than 5 000 employees in fourteen countries. At Sigma Young Talent we are 200 consultants driven by our vision Expect A Better Tomorrow; meaning that we work together to create a better tomorrow for our customers, coworkers and for the society.

## **Our Graduate Programs**

Throughout our graduate programs you will work at one of our partners sites. The program endures for twelve months and you will be given the opportunity to achieve a deeper understanding of our costumers' products and get general education within your field of technology. After a successful participation in the program, you'll be offered an exciting position at our partners' company in order to continue your tech-career. Presently we have ongoing graduate programs with leading companies within the industry of finance, insurance, automotive, aviation, retail and healthcare.

Do you want to advance your tech career to the next level?  
Join one of our programs starting in August 2021!
